Dear Director Dudas:

This is in regard to the application for patent term extension for U.S. Patent No. 6,020,329 filed by Pfizer, Inc., under 35 U.S.C. § 156. The animal drug product claimed by the patent is CONVENIA (cefovecin sodium), which was assigned new animal drug application (NADA) No. 141-285.

A review of the Food and Drug Administration's official records indicates that this product was subject to a regulatory review period before its commercial marketing or use, as required under 35 U.S.C. § 156(a)(4). Our records also indicate that it represents the first permitted commercial marketing or use of the product, as defined under 35 U.S.C. § 156(f)(1).

The NADA was approved on April 25, 2008, which makes the submission of the patent term extension application on June 20, 2008, timely within the meaning of 35 U.S.C. § 156(d)(1).

Should you conclude that the subject patent is eligible for patent term extension, please advise us accordingly. As required by 35 U.S.C. § 156(d)(2)(A) we will then determine the applicable regulatory review period, publish the determination in the *Federal Register*, and notify you of our determination.

Please let me know if we can be of further assistance.

Sincerely yours,

Jane A. Axelrad
